

Release Notes and Installation Guide

Antenna Information Package v25.1.0 for mosaic-T

1 Installation Guidelines

In order to upgrade the Antenna Information Package to version 25.1.0, only the file `mosaic-T AntInfo v25.1.0.suf` should be used, following a standard upgrade procedure.

2 New Features and Improvements

2.1 New features in version 25.1.0

None

2.2 Improvements in version 25.1.0

1. Updated Antenna calibration data based on NGS file dated 01 Apr 2025.

3 Known Issues and Limitations

1. Version 25.1.0 contains the IGS list from GPS week 2356. To verify which antennas are part of this list and to check if the upgrade was successful, cross-check the receiver antenna list with the IGS source (https://files.igs.org/pub/station/general/rcvr_ant.tab).

4 Support

For further information or support, please consult the Septentrio support website (<http://www.septentrio.com/support>).

5 Legal Notice

Septentrio does not authorize the use of its products as critical components in devices or systems intended for safety-of-life applications or in devices or systems, of which the failure may endanger life or cause injuries, unless written approval is given.
